

INTRODUCTION

This bibliography contains the most important publications on commercial arbitration mainly in English, French, German or Spanish. If no language is indicated the publication is in English. Our survey covers in principle the years 1965–1975, but some basic treatises prior to 1965 are also included.

The bibliography is divided into three parts:

I. GENERAL

1. Register of Texts
2. Congresses
3. Bibliographies and Dictionaries
4. Books

II. COUNTRIES

Under this heading arbitration literature concerning arbitration in a specific country has been mentioned. For literature regarding a specific country the national reports, contained in Part I of this Yearbook, should be consulted as well.

III. JOURNALS ON ARBITRATION

In this Volume of the Yearbook a list of periodicals dealing exclusively with arbitration has been added on special request.

Note

Our bibliography is meant to serve as a first orientation and is by no means complete. Articles and minor publications are left out. They may be found in extensive bibliographies annexed to some of the books mentioned in our bibliography or in the bibliographies and dictionaries listed under General no. 3.

This first attempt to give a survey of major publications will be completed in the Yearbooks to come. The general editor will be glad to receive from readers suggestions for correction and additions. These should be sent to his address: 134, Burgemeester Knappertlaan, Schiedam, Netherlands.
